1st project meeting Frankfurt – some outlines:
Where we come from; Where we want to go to
How the way is looking alike.............

Dr. Hainmüller

www.semog.de
The problem: Could this happen everywhere?

Teachers in Berlin publicly declare: We give up our school – violence, disrespect, ignorance – police called in..
European classrooms are a mirror of the 27 countries with their individual cultural, social, historical and religious backgrounds.

Learning from differences and learning to live with differences
Our teacher trainees face the intercultural problem for the next 30 years of their teacher being...... Are they prepared good enough?
Are we well prepared?....

Skilled future teachers …

Prepared for Europe..

Teachers' values, coming from socialisation, stereotypes, deeper beliefs, influence attitudes of how to behave and to teach.

How do intercultural diversities influence teaching?

Can differ very much and lead to fundamental misunderstandings.

Pupils' values, coming from socialisation, stereotypes, deeper beliefs, influence attitudes of how to behave and to learn.

Slaves of foreign culture.

Learning by doing

Communication in the classroom
„Intercultural competence is:
• **Readiness** to accept, somebody is not from our hut
• **Awareness** he is not like me
• **Sensing** that there are reasons for
• **Feeling** of differences among us
• **Gaining** to understand them
• **Verbalising** them in non rude wording
• **Acting in common fields of interest**
What to learn from old Greeks

Xenos is the greek word for hospitality and also for a stranger. It’s the same root for xenophobia, fear of the stranger. So you can have love of the stranger or fear of the stranger.
