4. Discussion about the term of culture

Issue of a static use of the term of culture

Students as well as teachers and parents aren't caught in their original culture. First of all they are individuals who have to handle different cultural influences, maybe comprehend several languages, have a certain socio-economic background and – furthermore – have their own personal characteristics which have nothing to do with cultural diversity.

Prof. Allemann-Ghionda

4. Discussion about the term „culture“
