

# As ... as GAME

## The aim of the game:

To raise awareness of our stereotypes about different nations.

## How it works:

The players of the national teams in an international group (like the TICKLE-group) are given the national flags of different nations. They are to find out which nation fits in which as-as comparison, and they are to show the flags of the given nation. The game helps to raise awareness of stereotypes and also to reflect upon them.

Please raise your flag, if you think that the  
stereotype is appropriate

**As sexy as...**
